

OCCUPATIONAL HEALTH & SAFETY POLICY

*Safe operations within our workplace are always the number one priority
We are dedicated to developing an environment of continuous safety improvement*

MC Pipes is committed to ensuring the health and safety of our employees, contractors and visitors by continually endeavouring to prevent injuries and illness in the workplace.

We adopt a planned and systematic approach to the management of occupational health and safety by providing resources for its successful implementation. All hazards to health and safety are identified, the risks assessed and where they cannot be eliminated they are effectively controlled. Measures to control hazards and risks to health and safety are regularly monitored and evaluated.

We demonstrate our commitment to providing a safe workplace to all workers, employees, contractors and visitors through the following workplace procedures:

- Scheduling of regular toolbox meetings to discuss health and safety issues
- Ensuring all employees, contractors and visitors are aware of their responsibilities in relation to safety, as well as holding them accountable for the provision and/or maintenance of a safe and healthy workplace
- Providing regular, adequate and effective training to all workers to enable them to carry out their work safely
- Involving and consulting with employees and contractors in decisions which may impact their health and safety
- Providing and maintaining safe systems of work so far as reasonably practicable
- Providing relevant information, instruction and supervision to enable all persons to work in a manner which will minimise risk of injury or illness
- Establishing measurable objectives for safety with a focus on continuous improvement in eliminating injuries and illnesses
- Complying with all legislation and regulations with respect to health and safety
- Provide adequate facilities for the welfare at work of workers, including ensuring safe access to those facilities
- Monitor the health of workers and the conditions at the workplace for the purpose of preventing illness or injury of workers arising from our undertakings
- Providing the necessary resources to enable the effective implementation of this policy

MC Pipes will periodically review our occupational health and safety policy to ensure it remains relevant and appropriate to the business.
